

## Whitley County Health Dept Community Environmental Rating Report

Today's Date 01-02-18 Joseph Decuis Project

# of non-compliant systems - determined as % 50% non-compliant

# of citations = determined as a % 1 written complaint, 4 verbal complaints

Information received from community it has been reported to me that houses on 700 E and 800 South discharge off of their property. Houses on the north side of 800 S discharge to the ditch. Two previous houses at the corner of 800 S and 800 E, were inspected and found to be discharging.

Physical site assessment Experience with four houses within the project area with obvious discharge, but no complaint.

Prior testing data Water testing of the Hinen Drain at 700 East in 2018 revealed high e Coli one time

Written Summary: With half of the septic not on file, I believe that all of septic most likely discharge off property. 9 of 13 septic on file are 30 years old or older. 2 of the 13 are 40 years or older. Previously inspected homes in the area reveal discharging septic. I believe this area does need sanitary sewer service.

Overall Assessed Score (1-5): 1
