

Whitley County Health Dept Community Environmental Rating Report

Today's Date 10-11-18 Report for Gateway East (38 Residences)

of non-compliant systems - determined as % 13%, 5 of the 38 w/o permits

of citations = determined as a % 16%
6 written complaint with 6 repairs

Information received from community Major flooding on the East and WEst sides and
through the addition.

Physical site assessment I belive many septics have been impacted by the flooding
issues over the years, and subsequent tiling of properties have occurred with
septic effluent now discharging off site through private tiles to the Eel River.

Prior testing data Prior testing through this office has not revealed high numbers of
of E coli yet.

Written Summary: 26 homes with septics 30 years or older. 17 of those 26 are
40 years or older. 70% of the septics are at the end of their life, combined
with flooding issues and suspected discharge of septic effluent to State waters.

Overall Assessed Score (1-5): 2
